

WE CAN'T AFFORD A NATION OF "TOO MANY PEOPLE"!

As concerned Americans, we speak for millions of citizens in demanding that Congress act immediately to adopt a National Population Policy that will address today's growing population crisis and work to halt, and eventually reverse, population growth.

A responsible population policy is a reachable goal. It includes setting realistic and sustainable population levels and reaching them through limiting legal immigration and aggressively working to stop illegal immigration.

Our nation can no longer ignore this serious issue. We cannot let inaction today destroy America as a great place to live, work and raise a family – for our generation and generations to come.
